

# Fully automated sales tax management

Taxes are a monthly obligation that consumes your valuable time, money, and mistakes can be costly. DAVO by Avalara is a powerful tool that automates every step of the sales tax process – from collecting to filing to paying. It integrates seamlessly with your existing POS, so there's nothing you need to do.

## Never worry about sales tax again

### No added work

Use your POS just like you always have. With DAVO, you won't need to do anything differently. No extra buttons to push or steps to take.

### Sales tax set aside daily

Don't stress about having enough cash at the end of the filing period. DAVO uses data from your POS system to set aside the exact amount of sales tax you collect daily. Sales tax is then transferred to DAVO's secure tax holding account.

### Automatic preparation and filing

Using the money it set aside daily, DAVO automatically pays the amount of sales tax you owe to the state, **guaranteeing\*** they're paid on-time and in full. Ensures you receive on-time filing discounts where available.

## DAVO is a business owner's best friend
